Setting Up – How to set the battery or AC-DC power Adaptor

Open the battery compartment by pressing the small plastic lock on battery cover *(1)* located on the rear of the V2T-10 Piece. Insert the supplied battery (9V PP3) into the battery compartment *(2)*, and then replace the battery cover.

NOTE: Insert battery with the correct polarity as shown in the battery compartment.

A 9V AC-DC Power Adaptor (not included) can be used to power the V2T-10 unit.

Plug the Power Adaptor into the mains supply and plug the other end of the lead into the DC Power Supply Port *(3)* (⊖—☉—⊕ DC 9V) on the right hand side of the V2T-10. Switch the mains supply **on**.

NOTE: Make sure the correct polarity of Adaptor output plug, centre is "+".

Setting Up – How to Connect the V2T-10 to the Telephone

To connect your phone to the V2T-10:

● Unplug the Handset cord from your telephone base socket.

● Connect one end of RJ9 to RJ9 cord supplied with the V2T-10 to the telephone base socket and one end to the input socket *(4)* (⌨) located at the top of your V2T-10 .

● Connect your handset cord to the output socket *(5)* (☏) located at the front of your V2T-10.

IMPORTANT: The V2T-10 cannot be used with one-piece telephones which have a keypad on the handset.

Setting Up – How to Connect the V2T-10 to the Smart-Phone or Tablet

To connect your smart-phone or tablet to the V2T-10:

● Connect one end of 3.5mm to 3.5mm cord supplied with the V2T-10 to the 3.5mm socket of your smart-phone or tablet and one end to the Audio output port *(6)* (🔊) located at the right hand side of your V2T-10.

● Download our **Text Hear Personal Hearing Aid** App from **Google play** and run it on your smart-phone or tablet.

IMPORTANT: At this stage, The V2T-10 only can be used with smart-phone or tablet running Android system.

6

Turning the V2T-10 On and Off

Put the mode switch *(7)* **OFF AUTO ON** to **ON** position, The Power On LED *(8)* will display RED, and the V2T is ready to work.

To turn the V2T-10 off, put the mode switch *(7)* to **OFF** position. The RED LED will switch off.

AUTO mode: Put the mode switch *(7)* to **AUTO** position, The Power On LED *(8)* will display RED, if there has no phone call for a certain minutes, the V2T will auto power off to save battery life. When there is a phone call, the V2T-10 resumes automatically.

Battery Indicator

The Battery indicator *(8)* should illuminate every time you use V2T-10. If the LED start to fade or does not light when your V2T-10 is in use, you should change the battery to ensure optimum performance.
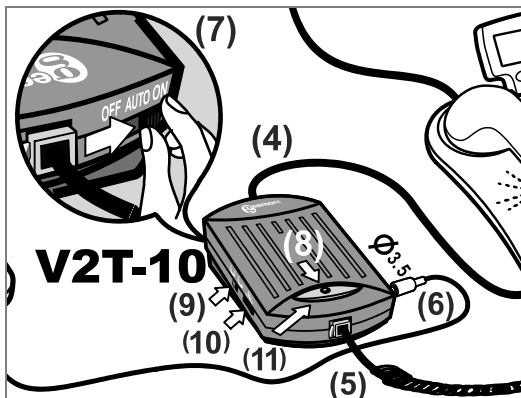

Making or Answering a phone call

When you want to make or answer a phone call, just do it as you do with your telephone!.

IMPORTANT: If you don't use the V2T-10 with Text Hear Personal Hearing Aid App, You can turn the V2T-10 off to save battery life. Turning V2T-10 to off will not affect your phone calls.
Voice to Text Convertor

## - Working with Text Hear Personal Hearing Aid App on your Smart-phone or Tablet

● Download and run **Text Hear Personal Hearing Aid** APP on your smart-phone or tablet.
